I AM Cassiopea—Elohim of PERCEPTION
and WISDOM; Elohim of the concentrated
power of attention, without which the mind could
conceive and know nothing, here or hereafter!

*The power of your attention, beloved ones, is
the open door to your mind and your entire con-
sciousness. On the beam of your graciously di-
rected attention I came earthward this morning,
bringing into the compass of your sweet planet
the energies, the powers and the light; as well as
the wisdom, the understanding, the comprehen-
sion and the PERCEPTION of the Elohim which
you may choose to accept and use. Later, it may
be written into the substance of Earth and pub-
lished in printed form,—through your consecrated
energies. In this way, all mankind may learn
of the activity of the Second Ray from the aspect
of the Builders of Form, the Creators of the
Universe and Those who work on the Second Ray
with Me. Our Ray brings illumined understand-*

ing of God's Divine Plan and Design; His Pattern to the people of Earth who open the door through their attention to that Pattern and Design.

Vital Importance and Magnetic Power of Attention

Beloved ones, in the outer consciousness, *you do not realize yet how powerful a force is your attention!* At this time, the attention of the Cosmic Beings, the Ascended Masters, the Angelic Host and the Devas has been directed toward the planet Earth by the God-parents of the System because of the great need and requirement of the hour. This need is to awaken those interested to an understanding of Earth's place in Our Solar System and of the requirements of the current hour for Her redemption and eternal victory in the light. That Cosmic attention (which is a beam of directed, concentrated light, looking not unlike the searchlight beam which you see playing over your great air-fields),—that concentrated beam of energy from the intelligences of the perfected Beings is now playing upon the planet Earth and has aroused the sleeping spiritual centers within yourselves, as well as within the more advanced and developed of the sons and daughters of men. This Cosmic beam has awakened your consciousness and spiritual self, the Immortal Flame within your heart, from the soul-sleep of the ages and has caused to stir within you a desire to return to your Celestial Home.

The planet Earth is presently in a state of Cosmic incubation and the beams of intelligent energy (which you call Cosmic Light),—are really light substance consciously directed to the Earth by the attention of Cosmic Beings upon Her.

One of these beams is the golden Flame of Divine ILLUMINATION from the hearts of certain of the Hierarchy which has been directed to this Earth for some time. As Illumination's Ray has continued to play upon the Earth and as the attention of the advanced members of the race has begun to reach out again toward God, the return current of the attention of the mankind of Earth to Heaven made the circuit complete.

We have loved and watched over you for so long! *Our attention has been upon you for a much longer period of time than your attention has been upon Us!* Through Our attention to you has flowed Our love and desire to help stimulate you to a point where you would begin the search for spiritual Truth; where you would begin to realize that the play-things of the senses no longer gratified. So you have discovered that the ordinary course of living and dying, as well as satisfying the personal nature, was not enough! Then your attention began to turn again toward your Source and even the most feeble beam of that attention, connecting with your Source, brought in response a greater outpouring of Divine love and light from above.

Now we come to the great Cosmic Hour where

your conscious attention is drawn to various members of the Hierarchy, according to a perfectly designed Plan, presented by Lord Maitreya, the Great World Teacher,* in co-operation with Beloved Saint Germain, Beloved El Morya and Beloved Kuthumi.

As your attention is turned toward the Hierarchy; as the names and activities of various Beings are brought to your mind's eye, so does your attention become a magnet which draws from the Octaves of Perfection certain Beings; certain activities of the Sacred Fire and certain God Intelligences Who use your life, through the beam of your attention, to enter into the lower atmosphere of Earth for the blessing of mankind! *Without your attention upon Us, there is little We could do for you.* Your conscious, directed attention through your songs, visualizations, contemplations and your mighty decrees made it possible for the Archangels to break the silence of the ages. Now they have also made it possible for Those of Us Who represent the Builders of this Universe to enter into the atmosphere of Earth. So, now I say to you in sincerity and with deep love and devotion—God bless you for your continued attention upon Us through the years,—forming the magnet which has drawn Us into this atmosphere today! God bless you for your atten-

tion upon the power of God,—which attention draws more and more of that power into the lower atmosphere of Earth, blessing all life!

Creative Service of Second Ray

When speaking to you recently, the Beloved Hercules told you that the first activity of creation is the making of a *personal* DECISION TO DO! No activity takes place on Earth or in Heaven until the intelligence with free-will decides within himself to WILL TO DO and to accomplish.

In the creation of this Solar System, when the Beloved Helios and Vesta (God and Goddess of our physical Sun and God parents of this System) willed to manifest the planets of this System and the evolutions which would some day achieve the victory of their Ascension from those planets; when These Beings so willed within Themselves, the Beloved Hercules summoned Us—the Seven Mighty Elohim. He asked Us if We desired to co-operate in bringing forth the planets of the System and, *as one*, We said: "We will so to do! We *desire* so to do! It is Our voluntary *decision!*"

Following the activity of desiring to do the Will of God; to co-operate and use Our Own voluntary energies in externalizing these glorious planets, My service came to the foreground. My activity is that of perceiving what the God-parents had designed and wanted to have made manifest. The purpose of the Second Ray is the PERCEP-

TION and active, illumined contemplation of the God Plan and Design. After you will to serve God; after you have made the decision and the surrender to the Will of God in the Secret Place of your own heart, next you must receive the Divine Idea, the directions as to how to manifest It and that portion of the God Plan which your own Christ Self would have you formulate and externalize. In exactly the same manner, We, the Elohim, Whose service to life, mind you, is *constantly creating* Planets, Stars, Suns, mighty focuses of light,—We had to become still enough to put aside the constant activity of creation in Our Own minds and feelings *to be able to know what Helios and Vesta desired.*

Therefore, the first activity of the mental body, after making the decision TO DO, is to become still; to stop the creative processes in honor of and in homage to the God Beings concerned or to one's own God Self and look upon the pattern and plan of one's Superior. In your case, this would be your Holy Christ Self and the Ascended Master Who is working with you. In Our case, it was the God-parents of the System.

Think for a moment of the power of creation which is vested in Hercules! Every Star in the Milky Way was created through the WILL TO DO, by the consciousness of that Great Being, Hercules,—and you have no count of their number! Yet, in the Presence of Helios and Vesta,—while yet Stars and Planets were evolving out of

His mind and feelings,—His first activity was to stop the motion of His creative centers and look upon the light pattern of the planets held within the bosom of the Silent Watcher, placed there by the God-parents. It was the same with each one of Us,—I holding the golden beam of PERCEPTION for Us all.

Looking upon the Divine Plan of Helios and Vesta, We were enabled then to decide within Ourselves how each one of the Seven of Us might best contribute the wealth, momentums and strength of Our Own particular Ray, to externalize perfectly the pattern of the God-parents. *We did not choose to change it according to Our Own Design,* but gave freely of Our life in illumined, humble obedience, to make of this Solar System the most glorious and perfect manifestation ever known!

Divine Purpose and Use of Mental Body

Now, beloved hearts, your mental body was created for just such a purpose. Your mental body was created to be a magnetic field, through the power of your attention, to draw into itself Divine ideas from your Holy Christ Self, or from some Ascended Master Who has taken particular interest in you and uses you as a part of Himself in the world of form. There are many individuals incarnate today who have voluntarily chosen to become partners here with an Ascended Master;

a Brother working in one of the Etheric Cities; or someone of great light who is working at Inner Levels between embodiments. Although the latter are not incarnated on Earth at this time, they *can* and *will* lower into the mental body of the incarnate lifestream so willing, certain ideas which have been perfected at Inner Levels. Through the concentrated beam of his attention, the Brother from the Inner Realm will hold that pattern within the mind of the receiving one until his own feelings, physical energies and good common sense, coupled with consecutive rhythm of decree and invocation, can externalize it.

These Masters, Brothers and the unascended working at Inner Levels to whom We have referred above, are dependent upon the reception into the mental body of the embodied one, of Their beam of light through his attention upon Them, or the idea which They are trying to manifest through him. Your Holy Christ Self is likewise dependent upon the reception into your mental body of the directions which should naturally arise from the Golden Plume of the Three-fold Flame within your heart into your brain consciousness. Your Holy Christ Self should be the complete directing Presence of your every outer expression. The *natural, normal activity* of the human self is to *completely rest* in the serenity and control of the Flame within the heart; the Three-fold Flame of Love (pink), Wisdom (gold) and Power (blue). That Golden

Flame of WISDOM carries within Itself the directions of the Holy Christ Self to the outer consciousness and should be constantly in control of the mental vehicle; constantly precipitating into it the Divine Ideas which the Great Ones choose to channel through you. When those ideas come, it is the responsibility of the mental body to hold them clear enough and long enough for the feelings to breathe into them life; breathe into them love; breathe into them enthusiasm and, through that pressure of light, externalize them into the world of form as manifest substance.

Need for Purifying Mental Body

Now, wherefore do you fall short of this? I will tell you, beloved ones! Your mental bodies, which are supposed to be these clear, magnetic fields of conscious energy, are so filled with the accumulated concepts of millions of years of living, that the Divine Ideas have no place to take root. You have seen a plowed field in the Springtime with the Earth newly turned, waiting for the seed to be planted which will bring forth a harvest in its time. You have seen a field which has not been so cultivated but, instead, is filled with weeds waist-high. You know well that should seed be sown in such a field, there would be very little within that field to nourish and bring a harvest to fruition. This is the condition of the mental

bodies of the race in general today. Instead of being ready to receive and fecundate the Divine Ideas from the Holy Christ Self (like the plowed-open field) receptive to and desiring to do that Will alone, mankind's mental bodies, through their attempts to satisfy the appetites of the senses, have been sown with tares, weeds and every conceivable human concept. Therefore, the Holy Christ Self (through the Flame in the heart), the great Masters of Wisdom and those who seek to reach mankind through their mental bodies, find not—even among the conscious chelas—that open, receptive, pure, consecrated and concentrated upheld Chalice of mind into which to plant the Divine Idea.

Your mental body receives through your attention and through all the activities of the senses. Everything your attention connects with—good or otherwise—draws back into the mental body a picture and form into your mind. If it be discord, whether you see it, hear it, feel it or whether you draw it in through any of the activities of the sense consciousness,—that discord enters the mental body and adds to the accumulation which is there! The mental bodies of mankind are like an old warehouse in which has been stored the furniture and accumulations of the ages. They are full of cobwebs and discordant human concepts; as well as much that is petrified and some which is in the process of disintegration!

In the course of an average life, mankind accepts "hit or miss" from the atmosphere; from the current religion of the day; from the educational system of the time; from the parents to whom he is born; from the race to which he belongs; from the history which he reads,—certain pictures which add to this conglomerate mass in the mental body. Through the qualification by the consciousness and experiences of each lifetime, the energies of each successive embodiment keep pushing backward into the past accumulations of the mental body, which consist of all that has been previously recorded. Through this conglomerate mass We endeavor to drive perhaps *just one* grain of Truth! Into this, from time to time, We endeavor to plant, perhaps *just one* seed and *hope* it will be nourished and grow.

Beloved hearts of light, when you first received your mental bodies from the Heart of Creation, they were so pure and beautiful! They were like the crystal ball which the fortune-tellers use (unfortunately, may We say) to magnetize the pattern of the future for you. However, in their original purity, those crystal balls of light signified the condition of the mental body which received from the Holy Christ Self the clear, concise, beautiful ideas of perfection. Then the outer self, perceiving that idea, realized that it came from God and that it was given into the keeping of its mental body; then to be nourished by the

feelings, developed in beauty and externalized in form. Now We must bring you again to that state! That requires the purification of your mental vehicles from ages and ages of imperfect accumulation! The great Golden Flame from My heart is given to you freely to render this service for yourselves. Even as I am speaking to you today, I am passing My Flame through the brain consciousness of every member of this race incarnate and all those who are yet awaiting opportunity to embody!

Please LET GO! LET GO! LET GO! of your *human* concepts of the ages. Ah, beloved hearts, Truth is a discomforting Presence! So many of mankind, seeking knowledge, wisdom, education,—seek only confirmation of their own concepts. In all honesty, have you ever noticed yourselves,—when reading a book or paper,—how you love to come upon that which confirms something which you hold dear within your own consciousness? You know how disconcerting it is when a new idea is driven at you and disturbs the peace of your concepts! Beloved ones, it is not the service of Perfected Beings to confirm any human concept. It is Our service to bring you pure, uncolored, Cosmic Truths which, if applied, will give you your Eternal Freedom! The men and women of open mind are those who, receiving into the mental body the Key to Freedom, apply It and walk upon the Pathway of Light into their Eternal Victory!

Stilling the Mental Body

Well, We take you just where you stand! First and most necessary for those who are to become the "Way-showers" for mankind, is the stilling of the mental body. When We enter a room as I did here this morning and We look upon the eagerness of the chelas to understand, the first thing that is noticeable is the motion of the inner bodies. Mankind in the West do not know how to become "still"; "still" in an alert, awakened anticipation which is not lethargy, sluggishness nor a negative consciousness. Before We begin to assist you, Our endeavor is to pass the Flame and Ray from Our Own consciousness through your minds and feelings. Thus We, at least to a certain extent, are able to still the agitations in your thoughts and feelings to a point where We can pierce through and anchor into your minds perhaps just one idea which you may take home, nourish it by contemplation and bring it to fruition. Have you noticed, as We come again and again, how little you retain of what We say? How much of what We offer you is put into actual application? Yet, you are far above the average consciousness of mankind today. *You are those through whom We hope to reach the masses.*

The first requisite, then, to manifest a Divine Idea is the stilling of the mental body and a desire to perceive the Will of God. The next requisite is purification of your mental body so that all the

shadows and discordant concepts; all of the human logic and reason do not intrude upon the purity of the Divine Pattern as It comes into the mental body from God. This purity protects the Divine Idea so that It is not dissolved or literally "devoured" by the many human concepts which have been living there from the past. Then, as you are able to perceive that design in Its purity, the next requisite is the concentration of your energies upon It, so that It may be externalized.

The mental body is two-fold. It is the receptive consciousness into which the Pattern comes; then, it is perceived, accepted and when it has been grounded in the mind, the great creative power of the mental body begins to act in a controlled, channelled and rhythmic manner. It creates around the seed idea the form thereof, cutting out of Universal Light the pattern which is necessary to enable that form to become a manifest expression. Then the mental body summons the feelings and asks the light thereof to flood through that thought-form rhythmically until that form is filled and lowered into etheric substance. From the etheric substance, it is lowered into precipitate manifest form. The rhythm and uniformity of the nourishment of your pattern and design will determine the speed of its manifestation; will determine the quality of your thought externalized; will determine how long it will live in this world of form and will also determine the bless-

ings which such a precipitation will be to the rest of this race.

Beloved ones, will you please begin to follow through this Science of Precipitation? Manifest each day some conscious externalized idea you have received from the Heart of the Father! You must begin this conscious training!

When Beloved Saint Germain brought to you some time ago the activity of the Elemental as the power of creating form; the activity of the Angels as the power of vitalizing form with feeling; the activity of humanity as the power of magnetizing thought and feeling (thus acting as the bridge to externalize it into the world of manifest expression)—He did so with the HOPE that by giving you the knowledge of the exact SCIENCE of creation, you would then have confidence in your own capacity to do these things yourselves. Then, in that confidence, faith and conviction that it is not just happenstance but that it is mathematically accurate and scientifically applicable for all mankind, *you become the Law incarnate!* You are the teachers of the New Day! Believe Me, the teachers of the New Day *will not be accepted on words alone.* They will be accepted on works! You are the chosen of the Brothers and Sisters of the Golden Robe Who, in illumined obedience, are to carry this Law to mankind!

How can you convey the Truth of the Law to others *if you do not know how to prove It?* However, prove it you can! You have a Holy Christ

Self and you accept that in the abstract. This Holy Christ Self has access to all of the Kingdom of Heaven; to all of the Seven Spheres. This Holy Christ Self is endeavoring to externalize through you the perfection of those Seven Spheres, according to your particular part in the Divine Plan.

The Seven Steps to Precipitation

When We were first called by Helios and Vesta and asked if We were willing to create this planet Earth, We said:

First: "We WILL to help You!" Next, We had the humility to ask what They wanted Us to do.

Second: Then, We were given that PERCEPTION, when We looked upon Their Divine Design.

Third: We also had the Divine LOVE to magnetize electronic light substance to form the planet.

Fourth: We had the PURITY and humility not to desire to change Their Divine Design.

Fifth: We had the CONCENTRATION of energy to stay with it (and do you know just how many millions of years it takes to create a habitable planet?).

Seventh: We also kept the RHYTHM of invocation and many a day We left Our Own particular Cosmic work to join with the Others of the Elohim, pouring love and light into this planet which was taking form at that moment. Never was

one of Us missing at that rhythmic hour, lest the Flame of Cassiopea or, perhaps, the Flame of Orion, should be in smaller proportion to that of the Others. If that had happened, the perfect harmony and balance of the Seven Elohim which came in rhythm century after century, would have been broken.

Sixth: Then it was required of Us to release to and through Our creation the PEACE and harmony which would sustain this planet until Its evolutions began upon It; as well as after the creation of mankind who were invited here to enjoy It.

Your Holy Christ Self now awaits your recognition and acceptance of It—and *not in the abstract!* That Holy Christ Self is a *very real* Being! It awaits opportunity to show you your Divine Pattern which can be revealed to you through your mental consciousness, when it is held like a Grail to that Holy Christ Self. This must be done in humility, sincerity and in a realization that, certainly, the Being Who made you and has sustained you for millions of years,—giving you even yet the breath of life—that Being should at least have some "say" in your affairs!

Joyous Enthusiasm Essential for Success

When It is afforded opportunity so to do, the Holy Christ Self will press into the mental body certain portions of the Divine Plan through flashes

of inspiration during periods of exaltation. The outer self should accept that,—not in a sense of strain; not in a sense of human will; but in a sense of great love for that Being Who has guarded and guided you, giving you life through the ages. When you get that feeling of complete consecration; that feeling of surrender within yourself; that desire to be about the "Father's business" first and foremost; and when you determine consciously to let go of everything else, *that instant your outer self will know it!* Then, when the Divine Pattern (Divine Idea) comes to you, you should let your feelings *enjoy* fulfilling It! How many men and women make that surrender; see the pattern which is to be their destiny; and yet, the feeling body shrinks from co-operation with that Holy Christ Self. Such an outer self then withdraws from the surrender; the Divine Idea is still-born and no manifestation occurs.

There is no unascended being who has not passed through that experience at least once during the span of his lifestream. Even in Gethsemane's Garden, the greatest of men asked that the "Cup" be taken from him! However, I warn you that, *unless the feelings rush joyously and enthusiastically* into the Plan to externalize It, your precipitation will be either lifeless or of very little lasting value to yourselves and to the world. When your feelings confirm your desire to do the Will of God and then you do that Will *joyously*,—in decree work, visualization and the

"Father's business" becomes a vital activity which fills the feelings with happiness and opportunity to serve,—then your creation becomes something which lives long after your own course is finished and you have returned "Home".

If Our energies had been poured reluctantly into this planet Earth, She would not have been such a beautiful shining Star as She was in the beginning; Amaryllis would not have found Her such a lovely workroom into which to weave Her energies, bringing the perfection of Spring; and the Angels Themselves might not have been magnetized. We created in love; *in great love and joy* and in anticipation of mankind's presence and happiness here!

Beloved friends, take now opportunity! Take now these great promptings and prepare yourselves to channel into the world of form some good and lasting blessing to life. Do this in Our Name and when you get that confidence which comes with your first conscious precipitation of substance into tangible, manifest form direct from the Universal, do not rest on your oars! Go right ahead into greater and greater experimentation with the power of your mental body to create form; your feelings to give it life; your etheric and physical bodies to channel it into the world of manifest expression. DO THIS and BE the precipitating Presence, remembering the Golden Flame of Cassiopea which is yours to use *and freely!*

Within your heart is the Golden Flame of ILLUMINATION which will reveal truth to you. Now, in answer to My call, this Flame arises into your brain structure and outer consciousness, clearing away forever the human concepts of the ages; clearing away forever half-truths and expanding the Golden Flame of the Seven-fold Activity of the Elohim, which is anchored within your forehead. Thus, if you will consciously accept it, each one of you is being made a Grail through which some Perfected Being may channel and direct His blessings for the race.

For Saint Germain, let us become the Precipitating Legions! For Saint Germain, let us become the Peace-commanding Legions! For Saint Germain, let us become the Healing Legions, as you here, in great power, already have become the Protecting Legions of this Earth!

The Science of Creation is in your hands and hearts. The Science of Creation is now planted in your thoughts! The Science of Creation must be externalized in your worlds, *if you love Us as you say you do!* Accept it, please! Use it and BE, for all mankind, the Brothers and Sisters of the Golden Robe, in full command of the power of thought, feeling, spoken word and action,—the Elohim incarnate! I thank you!
