Oct. 3, 1954

I AM Orion, Elohim of LOVE—that Divine LOVE which has caused to come into being every Sun and Galaxy in the Universe; every Star and every Planet; every form—from the Great Solar Galaxy to the tiniest Elemental and atom belonging to this planet.

Divine LOVE is a *positive* and *not* a negative quality. I come into the atmosphere of Earth this morning on the wings of Divine LOVE, bringing with Me the concentrated Flame of that LOVE. This Flame has been the magnetic cohesive power which drew into being the Earth upon which your feet stand, the very physical bodies in which you presently function and every other manifestation which appears here. Every form which you enjoy is a part of My Being, held together by the Flame of My LOVE; for, if Divine LOVE (which is COHESION) were to cease to be, all in the Universe would return to the

unformed and become again part of primal life.

This morning, I bring into the atmosphere of Earth the fullness of that Pink Flame and Ray, individually for you! I bring It as a melting, dissolving spiritual alchemy to remove those resentments and pressures of energy within your feeling worlds, deeply imbedded within your memories. These pressures are caused by the records of many unhappy experiences of the past which have formed wounds and scars within your etheric (memory) bodies. These wounds and scars burst open upon the slightest provocation, spewing forth again the poison of past enmities, past feuds and past misunderstandings.

Man knows not what he carries around with him, buried deeply within that Realm which Science calls the "subconscious" mind; that Realm in which there are atrophied the memories of every experience in every embodiment from the first day the lifestream "fell from Grace" up to the present moment. Sometimes, Those from the God-free Realms Who guard and govern the destinies of World Movements almost shudder when They look upon the ever-weakening scar-tissue which the glorious Builders of Form seek to weave over those hurts and distresses in the etheric body. However, in order to fulfill Itself, the Divine Plan brings together again and again certain lifestreams, each one of whom carries these memories of past enmities between them; the Divine Plan presenting over and over again

new opportunities to "make things right". Sometimes the very proximity of these individuals to each other (even in Divine service) will cause provocations to arise which are similar to those which made the original wounds. Then these wounds are likely to burst open once more, tearing asunder the etheric body. This releases again into action those feelings of rebellion and buried hates from the past which originally destroyed the comradeship and affinity of these lifestreams for each other and weakens those ties which *should* "bind their hearts in wondrous LOVE".

Beloved ones, will you now *consciously* give me your *attention*, please? If you know of any lifestream with whom, in this Earth life, you are not in complete accord, consciously draw the image of that person before your mind's eye *now* and let Me give you the pressure of *My feeling of unconditional* loving forgiveness toward that one. *If you will accept this*, it will cut you free from the recoil of the energies of those past mistakes which made the enmity in the beginning. Experiences of physical embodiment, good or bad, weave ties that, if they are not worked out here on Earth, will have to be balanced in another Realm through your inner vehicles (etheric, mental, emotional).

This hour, I *blaze* and *blaze* and *blaze* into, through and around you the most concentrated action of pure, Divine LOVE, increasing Its in-

tensity and pressure until it will be impossible for you to even retain the memory of injustice or to allow again the stirring of so-called "righteous indignation". *Accept this now and be free!* This is the gift of LOVE which I bring into the heart and world of each one of you who will accept it.

Creation by the Elohim

I am One of Those Whose great joy it is to paint upon the Cosmic canvas, responding in LOVE to Intelligences Who desire to bring into being whole Universes. Our first activity is the making of the DECISION wherein We WILL to comply with the design created by some God-being. Then, We look upon that pattern held within the bosom of the Great Being known as The Silent Watcher and, in order to begin such creation, first We (the Seven Elohim) join together Our energies in LOVE and consecrate them unto the completion of the God-design. We LOVE to use Our life to unfold some portion of the Divine Plan in some Galaxy or System. The great God-parents Themselves (Helios and Vesta in this case), designed a Universe with Their Own hearts and consciousnesses; a series of potential planets, each to provide habitation for the evolutions which were to come forth thereon. These God-parents created that entire design in LOVE. Why did They do this? You have been told that God divided the Rays in order to have

something to LOVE. He gave intelligent consciousness to you so that you might share the joy of creation.

When Helios and Vesta had completed that design, it was LOVE in the heart of the great Silent Watcher that answered Their call and brought Her before Them. Then the Silent Watcher accepted into Her bosom Their Divine Design for this particular Universe. She held it within Herself exactly as She received It from Them; until such time as the Elohim (responding also to the call of LOVE), gathered around Her, looking upon the Divine Plan of this creation which She held. For this gigantic task, the Beloved Helios and Vesta summoned to Their assistance the Seven Mighty Elohim.

First, the mighty fiat of Hercules went forth to those of Us Who work as One Body. Said He: "A new System is to be born; a new set of God-parents has chosen to create a series of planets. I am called upon to give the decision as to whether or not the Seven Elohim will choose to cooperate with the manifesting of this Plan. Do you, My Beloved Associates, choose to be a part of this creation?" In answer, each One of Us rushed forth in LOVE—*grateful for opportunity to serve*. Each of Us said: "I WILL!" As Spokesman for Us all, Hercules then preceded Us to the Thrones of Helios and Vesta and, announcing Our decision said: "Beloved God-parents, WE WILL to

create Your Universe for You. *What now is Your design?"*

It was LOVE which enabled Us to have the courtesy to accept the design of Those Beings, rather than to project Our Own. Then, in Their great wisdom and light, Helios and Vesta asked the great Elohim Cassiopea to pass His Golden Flame through the body of the Silent Watcher and reveal the magnificent Divine Pattern for this Solar System. We all stood looking upon It with LOVE, interest and admiration; seeing the size of each planet and the number of lifestreams which were to come upon it. In LOVE, We looked upon the hope of the God-parents of this System.

Then, in the activity of My Ray (Divine LOVE), began Our service of creation. LOVE, the Universal Magnet which all life must obey, drew primal life from its quiescent state at My command and, that primal life obediently took form according to the Pattern which We perceived in the bosom of the Silent Watcher. Thus We proceeded in the creation of each planet.

Loving Cooperation in Rhythm

First—there was Hercules' WILL TO DO; then there was Cassiopea's PERCEPTION; then came My LOVE—the focal point—the Immortal Flame within the heart of Our creation. Then came the activity of the Elohim of PURITY, holding true

to the original Divine Design so that, even unconsciously, there might not be imposed upon this Pattern some change of form, coming from some other Galaxy which We were completing at other hours of the same day. This beloved Elohim held to the purity and symmetry of the Divine Design in courtesy to the great Beings Who chose to bring It forth. Not One of Us would *presume* to enter upon the creation of the planets of the System if, in illumined obedience, We were not willing to follow the Design of Those Who drew It forth.

Then came the CONCENTRATION of energy by the Mighty Vista (Cyclopea), so that all the Elementals, Angels and Builders of Form could coalesce Their energies and talents around one planet at a time, when that one was being drawn forth into form.

This CONCENTRATION of the Mighty Cyclopea was so important—staying with the Divine Plan for the Creation of each planet, so that when the Manu of the First Root Race was ready and His people were ready to take embodiment, We had not dissipated Our energies in creating something which was more pleasing to Ourselves. Besides, in following the Divine Plan given to Us, it enabled Us to have planets ready on time.

Then, as the radiation and power of the Mighty Cyclopea increased, We drew the activity of Arcturus—the RHYTHM of the outpouring of each of Us. This is one of the most important factors

in creation for rhythm provides nourishment for the form. In your physical bodies, the rhythm of your heartbeat and that of your breath determines the efficiency of the physical form you wear. In your own precipitation, the rhythm which you establish will determine the symmetry, beauty, accuracy, efficiency and general perfection of your manifest design.

For instance We, the Elohim, offered to give a certain amount of Our time each "day" to the creation of this one planet and We all arrived *on time, rhythmically*, no matter where We had been or what We had been doing,—mind you, other Galaxies, other Solar Systems were being created at the same time! Perhaps We had better explain that We do not use "days" in the same sense as you do here; We use the words "days" and "hours" (which scholars question), because We must have some measure of expression which you will understand in order to be able to convey to your minds a rhythm of application.

Our Seven Flames fed Our "infant" planet, breathing into It the Cosmic application of creation. The mighty Devas Who govern the building of form also came in rhythm and gave Their service; the Angelic Host came and gave Their service rhythmically too. The Directors of the Elemental Kingdom and the Elementals themselves also worked in rhythm with Arcturus, the great and mighty Elohim of the Seventh Ray.

Here, again, there is the inversion of the action

of the Sixth and Seventh Rays in the Elohimic activities, so far as the building of planets is concerned. Here the Seventh Ray (representing rhythm) precedes the Sixth (representing peace). The reason for this is that the rhythm of building is a part of the service of the Seventh Ray in order to permit the coalescence of Universal light into form. The Sixth Ray (ministration and radiation of PEACE) is the solidifying of the perfect design. This now takes seventh place so that when the Earth was completed, as It first began Its Own revolutions upon Its axis, the Music of the Spheres began to pour forth from that planet.

Therefore, *lastly* came the radiation of the Elohim of PEACE ("Tranquility") which held the form of the Earth from disintegration because, *where harmony, peace and tranquility abide, that which you have drawn forth cannot either be taken away from you or disintegrate*. Just as you shellac certain things to preserve them against rust and decay, so does the activity of the Elohim of Peace enfold and seal all creations in the entire Planetary Scheme brought forth by the Elohim, for the period of existence designed for that creation by the Divine Plan held in the mind of the Universal First Cause.

Again came the importance of rhythm as the Beloved Amaryllis (Goddess of Spring) brought Springtime to Our Earth successively for nine hundred years. Only then was Our planet ready for habitation.

In this same manner We proceeded with the creation of the other planets of this System. These are the SEVEN STEPS TO PRECIPITATION (creation) used by the Elohim and Builders of Form on a Cosmic scale. You and every individual who desires to become master of the creation of form, *must also learn to use these same seven steps.*

The Seven Steps to Precipitation

First: You must WILL TO DO! You must make a DECISION in your heart, mind and spirit; a decision based upon prayerful thought and application so that *you are sure it is the right decision* and that your feelings concerning it are enthusiastic about bringing it forth.

Second: After you WILL TO DO, take the time to call into action the Flame of Mighty Cassiopea to give you Its PERCEPTION (Illumination)—the perfectly clear picture of what you want to do and the directions as to how best to bring it forth; to qualify the abstract idea so that your form is something of benefit to life.

Third: LOVE your manifestation into form. The more sincere feeling of LOVE you can put into it, the more beautiful will be your form and the more quickly will it manifest. This is true whether it is something you wish to create for your personal use or whether you are altruistic enough to so create for the benefit of a World Movement. The more LOVE you put into your

service, the greater will be your manifestation; the higher will be its quality and the more plentiful its blessings to the world of form.

Fourth: Then be sure to hold firmly to the original Divine Design. In as much humility and selflessness as possible, hold to the PURITY of the Pattern (Divine Idea) which you have received from God and *do not attempt to constantly change it with every passing whim.*

Fifth: Next comes the power of CONCEN-TRATION; following through with one thing at a time; staying with it until it is wholly completed. It is better to do *one thing well* than to do a hundred things imperfectly. Your phrase "Jack of all trades and master of none" refers to this wavering consciousness. *Do not allow fear and doubt or ridicule of the outer world to make you feel that it cannot be done!* When a mental picture is flashed to your mind and you deliberately call it forth again, *you begin to draw forth the reality of that picture.* Your "fundamentals", given to you *for your use* years ago by the Ascended Master Saint Germain, gave you this instruction. For instance, if you want financial freedom *hold to that idea* and see that substance visible and tangible in your hands and use now. If you want youth in your bodies so that they do not show age and if you want freedom from certain limitations of mind and the flesh body—greater freedom to serve this Cause—*get the definite picture of just what you do want and stay with that one*

idea until you have brought it forth into outer physical manifestation! Let there be no "ifs" or "buts" in your consciousness and your Universe concerning it. When that which you have conceived and willed to bring forth hurts no man or any part of life, it will be a blessing to the Universe. If you will LOVE life enough to stay with it; if you will be humble enough to let God do His Will through it; if you will concentrate upon one thing at a time, you can produce your manifestation!

(Here, again, comes the inversion of the activities of the Sixth and Seventh Rays).

Seventh: Now your idea which you wish to precipitate into form must be nourished in RHYTHM, with at least as much regularity as you take your meals into your flesh body each day.

Sixth: Last, but not least, when your manifestation finally appears in the purity of form in which you have desired and designed it, *you must hold the PEACE and harmony of feeling* which seals your entire creation in Divine protection.

When these seven steps have been completed according to this Divine Pattern, you will see and know that *the creative powers of the Elohim are Universal and can be used by anyone at will!*

Lack of Peace Disintegrates

You know, there was no such thing as disease, decay, disintegration or fermentation before man-

kind lost their feelings of harmony. Rust, mold,—everything that is unpleasant even in the Nature Kingdom—has appeared because the quality of the Elohim of PEACE ("Tranquility") is not manifest in the form which has been created. Look at the magnificent homes, Temples and cities which have come forth in the past from the minds and energies of man; creations which have crumbled into decay today. Whole continents have sunk from sight beneath the waves of the sea, all because the final activities of Peace and Harmony were not sustained.

In your personal lives, think of the perfection of the body which was given to you at birth. Of course, you cannot consciously remember it but I can tell you it was beautiful—precipitated into the world of form. It would never have known decay or imperfection of any kind if the Flame of Peace had been sealed around it; protecting it from the mass consciousness of disintegration. The activity of *disintegration* is as far from that of *etherialization* as darkness is from light. Etherialization of form (after that form has served its purpose) is a part of the Divine Plan of the Universe. Every Ascended Master or Cosmic Being; every God-intelligence on any Star or System, when wielding the Powers of Precipitation, deliberately wills the length of time through which any form of manifestation shall endure. Then, at His conscious direction, when that form has served its Divine purpose for being, it is harmoniously

and beautifully returned to the unformed without any marks of disintegration, such as odor or appearances of imperfection. This etherealization is done beautifully to music and the substance which has thus served is given a definite blessing by the Being Who originally drew it forth.

Decaying bodies and moulding form are the records on the Book of Life of inharmony. Now, as the Beloved Ascended Master El Morya chooses to build a New Activity which will be the heart of a World Movement to make our Earth "Freedom's Star", I tell you truly today that the greatest wisdom; the strongest will; the most powerful application will not sustain and expand that New Activity, unless the feelings of Divine LOVE, Peace and Tranquility are held uninterrupted by those who LOVE these qualities more than they LOVE having their own way!

From the time of the "Fall of Man", many, many magnificent civilizations have come into being and returned to nothingness because of the lack of sustained Harmony and Peace. Hundreds and thousands of times all through the ages, you have drawn forth one physical body after another; only to have them periodically disintegrate into formlessness after they had served you for a time—all because of the lack of sustained Harmony in your feelings and the feelings of those about you. (Now, I think perhaps I am projecting Myself into the discourse of the Elohim of

Peace and I should give Him the courtesy of allowing Him to describe His Own activities in the Universe. However, since He is such a mild and harmonious One, Methinks He would not be as vehement in His plea for sustained Harmony as I have been here. Perhaps I shock you with My fiery insistence upon sustained Harmony for you would not ordinarily expect this from the Elohim of LOVE.)

Love is Practical Christianity

This morning I come as a messenger of God to bring to you the activities of Orion (Elohim of LOVE) and to give you some comprehension of LOVE as practical Christianity.

Precious hearts, it is not the Law that one should remain in a state of *negative harmless*—a "Pollyanna" consciousness—that is not LOVE! LOVE is a very *positive* quality. To fulfill the Law, one is required to be *positively good*. Would it be LOVE for one to stand on a river bank and watch a man drown? No! LOVE would *plunge into the stream and bring the man out while there was yet life in the body*. It was LOVE which took Lord Buddha from the glorious peace, freedom and opulence of His Kingdom and made Him walk the paths of Earth, trying to find a way to relieve His fellowmen from those distressing appearances of poverty and suffering which

shocked His sensibilities. It was LOVE that kept Him rising in consciousness through Sphere after Sphere of God-perfection until He reached the very heart of Creation Itself. Then He returned to the limited appearance world and His Own physical body, in order to bring to His fellowman the Truths which He had learned in those great heights.

Let me tell you that after one's consciousness has been enmeshed in the discord and limiting appearances of physical embodiment for so many ages, it takes great LOVE not to succumb to the beautiful peace of the Inner Spheres after one has arrived there! Quite naturally, the tendency then is to just lie down in the first green pasture, saying: "This is it!" It takes a great deal of Divine LOVE to desire to keep rising in consciousness from Realm to Realm—pushing ever onward until one has found the Source of all Truth and then rest—even if just for a moment—on the bosom of the Eternal Father. Then—what LOVE it takes to deliberately determine to come back into this world of form with its forbidding shadows, after having successfully made that journey and felt the beautiful Presence of God, Himself! It was positive LOVE which brought Buddha's spirit back to Earth through Sphere after Sphere of beautiful God-consciousness—back into the hot burning sands of India, to walk again (*apparently* like any other man) just to carry Truth to others.

Love is Action at the Moment When the Requirement is Greatest

It was LOVE, precious Children of God, which spurred Moses on to draw the reluctant people of Israel away from the flesh-pots of Egypt, in an endeavor to find their "Promised Land". It was LOVE which made Him walk across those deserts and, in the extremity of their need, part the Red Sea which stood between His people and the protection they desired from Pharaoh's army which followed them.

It was LOVE which took Moses up the side of Mt. Sinai when the clouds of discontent, fear and lethargy of the Israelites had all but put out the fire of His vision and, sometimes, He knew not whether He was still a Messenger of God or whether He had become a victim of fantasy! It was LOVE which held Him on the pinnacle of that mountain while God, in His great mercy, gave Moses the *positive* affirmations of Truth—The Ten Commandments. Here He received Them and cut the words thereof out of the very rock itself. These same Ten Commandments have remained at least a portion of the Law from God to man ever since that day. However, through the shadowed consciousness of mankind, those Commandments, representing the Divine Law, have been distorted into the negative form of "Thou Shalt Not".

It was the LOVE of those who stood with Moses

which upheld His arms at the time when, because of the very pull of gravity, He could no longer hold them up Himself in His endeavors to magnetize the power of the Lord to give His people victory.

In Galilee, it was LOVE that enabled a young man (with a body of such perfection as has not been known since on the Earth-plane and filled with a LOVE of Springtime) to willingly lay that body upon a cross, submitting to the Crucifixion. It was LOVE which burst the tomb asunder on Resurrection morning and LOVE, *again*, which enabled Our Beloved Jesus to make the visible Ascension in the presence of some five hundred people. It was the LOVE FOR GOD which enabled a man who had a greater capacity for affection and friendship than any of unascended mankind have yet known, that enabled Him to renounce further association with His beloved Mother and His loved ones, to answer the summons of the Eternal Father—proving that the *conscious Ascension was possible for all!*

After that Ascension had taken place, it was a *positive* LOVE which carried Mary into Bethany with John, Peter and James and it was LOVE which enabled Them to establish there the unit which held the spiritual connection with Beloved Jesus through all that long period of thirty years and more before Mary was called "Home".

It is LOVE which brings Lord Michael (the Archangel) from His Realm of Perfection to serve

in the psychic plane of Earth twenty hours out of every twenty-four, as He has been doing for some years now and it is LOVE which brings the assistance of all the other Ascended Masters and Cosmic Beings into the atmosphere of Earth to answer your calls. LOVE IS POSITIVE CONCENTRATED ACTION TO ASSIST MANKIND AT THE MOMENT OF THE NEED—*according to the receiving capacity of the lifestream which makes the call.*

It is LOVE which sends certain lifestreams to the leper colony, joyously willing to give whatever assistance they can to the afflicted there. It is LOVE which makes the men of research work so persistently—often at considerable self-sacrifice—to bring forth those scientific findings which have proven to be of such assistance to the race. It is LOVE, too, which brings the comfort and convenience of your inventions into the use of man in his every-day life.

WITHOUT LOVE, NOTHING IS PERMANENTLY ACCOMPLISHED; without It the clearest vision remains but a cloudy vapor!

LOVE IS CONSTANCY UNDER THE MOST TRYING OF CIRCUMSTANCES AND ACTION AT THE MOMENT WHEN IT IS NEEDED MOST.

LOVE was signified by Abraham when He willingly laid Isaac upon the Altar of Sacrifice. That which was dearest to Him He offered to the Lord!

LOVE is the pouring forth of the full-gathered

momentum of the good of your own lifestream for the good of all. Let lips be sealed which speak of LOVE if they cannot manifest that LOVE in action—in *service*—not mere words! It was LOVE which brought Me here this morning and LOVE which brought you too—LOVE of God, LOVE of service and LOVE of yourselves; all these entered into it and brought you here.

Recent Blessings to Incoming Children

Now, before We close the address today, let us take up some activities concerning the incoming children and youth, which subjects are so dear to My heart. I am very grateful indeed for the real sincerity with which you have entered into your calls for their protection, purification, illumination and general well-being.

The month of May in each year is the month of consecration of these lifestreams who are to take physical embodiment here on Earth during the ensuing year and it is the time when they all stand before Beloved Mother Mary in Her Temple of the Sacred Heart at Inner Levels. The children who were consecrated in May of this year, of course, are not yet born into the world of form; so you have a little more time to decree upon and develop the "seed ideas" of ways and means to help them—(which "seed ideas" were given you by various of the Great Ones Who have recently addressed you on this subject). By such endeavors,

perhaps you can increase the number of perfect bodies and balanced minds which will be allowed by the Great Cosmic Law to be given these incoming children this year for, without your calls, I assure you that some of those bodies would not be so comfortable for them to wear.

Now, at this time, I would like to describe something of what takes place in the physical octave of Earth (while these prospective incoming souls are preparing at Inner Levels for physical embodiment here), especially in, through and around the expectant parents who have a very definite (and sometimes quite detrimental) effect upon the being and world of the soul who is taking embodiment. As unascended lifestreams who are already in embodiment here, (because you are the authority over the substance and energy of the octave in which you abide) you can, if you will, make the calls to the "I Am" Presence, Ascended Masters and Angelic Hosts for the protection, purification, illumination and general assistance to these parents and such calls will assist them tremendously.

First of all, the etheric body is the "memory world" of the individual. It carries the records of every experience in each Earth-life, as well as the experiences at Inner Levels where the soul abides between embodiments. The etheric records of the Earth-life of the individual determine the pattern of the etheric envelope (body) which the soul occupies while it is in the Higher Realms between embodiments. In other words, at the close of an

Earth-life, the Realm to which the soul is drawn for instruction and assistance *between embodiments* is determined by his consciousness at the close of that life—which consciousness is the sum total of his use of life through his own free-will—whether that be constructive or otherwise.

While the soul is in the Higher Realms, the etheric body gradually throws off the appearances of age and disintegration of the Earth-life because, being sustained by a Body Elemental, it mirrors that which it sees and by which it is surrounded. You have been told that all Elemental life is imitative in the extreme. It mirrors anything and everything to which its attention attaches through sight, hearing or any of the senses.* Therefore, when the soul is assigned to a Realm where there is perfect balance and symmetry of form, the etheric body will automatically drop the appearance of age and the distresses of its Earth-life and mirror the more perfect appearance of those with whom they associate in the Temples there; as well as those of the Master Who is their Teacher there.

Each Soul Alloted Its Own "Karma"

However, when it comes time for the soul to come again through the Gates of Birth into the physical octave, it is allotted its "karma" (both good and otherwise) for the next embodiment.

* (Note: See final chapter of our book—"Memoirs of Beloved Mother Mary".)

Such "karma" is, of course, the result of all the activities of that soul in its previous Earth-life; as well as in all the other lives it experienced theretofore. The pattern for the new body is determined by this "karma" and the new body's appearance, comfort and effectiveness to the soul is determined by that which the soul has earned in past lives. If many of these etheric records are of a destructive nature, this causes the distortion of the form of the incoming physical vehicle and the Body Elemental copies that "karmic" pattern. You see, the Body Elemental works here with the *etheric* body and, therefore, it would be so helpful to the incoming lifestream if it were to have its etheric body purified—cleansed of all distorted forms and destructive impressions—*before its physical body is builded*.

This morning, We are going to deal with several other phases of this activity which will be beneficial to the granting of the Dispensations of the day and, if your energies are vital enough, I shall ask you to contribute to this service, even though it may be in a small way.

Greatly blessed indeed are the lifestreams of those who are being prepared to be the parents of those incoming souls *who are wanted!* The desire for the child and the parental LOVE which accompanies such feelings, are of tremendous assistance to the lifestream to be born. This LOVE also automatically draws the Deva of the Builders of Form and the Angel (or Angels, in some cases)

Who stand guard around the mother-to-be, particularly during the period of gestation.

However, when you come to the condition where women are bearing children out of wedlock or reluctantly and the qualities of fear, resentment, rebellion and shame are strongly charged into the feelings of the mother, *these destructive feelings have a very detrimental effect upon the mind (mental body), brain structure and emotional body (feeling world) as well as the flesh body of the incoming soul.* Besides this, the censure of society (which is a great, living, mass "entity" in the atmosphere of Earth) drives its energies against these women and does more to cause unbalance in the minds of incoming children than almost any other one thing—other than their own individual "karma". That entity of which I speak is one of arrogant pride and scorn—terrible in its appearance—and I hope you never have to look upon it! This "entity" forms a pressure of unhappy feeling around the expectant mother and incoming child, against which pressure the Body Elemental must work. A goodly number of those who are to take embodiment this year must face this condition and even now their new bodies are already encased in the substance which is charged with those unfortunate qualities.

I am going to ask you now to sing a song, the energy of which (as it is released by you) We are going to qualify with Violet Fire and dedicate to the melting away of that substance from these in-

coming souls. At the same time, We shall establish a protective shield of pure etheric substance around both mother and child. In this, We shall be assisted by Beloved Mother Mary (Mother of Jesus), Beloved Kwan Yin (Goddess of Mercy), Beloved Meta (Daughter of Sanat Kumara from Venus) and Beloved Nada (Goddess of Love); all of Whom, last evening, offered to give Their special assistance to these incoming children, if you would so co-operate today by making these calls.

Explanation of "Karmic" Ties

You may ask—and rightly so, too—"Why are incoming souls given (through birth) into the keeping of those who do not want them?" One reason is because of the pressure of the times—a certain number *must be born* within the course of one year, especially now when the planetary evolution is accelerated. You see, "karmic" ties between parents and children often play a very important part in the fulfillment of the Divine Plan—individually and for the planet.

Sometimes a woman will want a child, but when the pressure of the feeling world of the soul she is to bear touches her aura—if her previous association with that soul has been unhappy—a great distaste and dislike for that incoming soul comes into the feelings of such mother-to-be; stirring up memories of past inharmonies with such incoming one. Then the mother-to-be often decides to abort

the incoming of this soul because of the tremendous antipathy which karmically binds them together. In such a case, one who had previously prayed sincerely for a child will suddenly not want it.

This is sometimes equally true of fathers-to-be. It is the cause of so many conditions of discordant home-life where fathers resent the children and jealousies ensue. This is because, between the child and the father, there is an old antipathy created by previous discordant associations in other lives—which associations often extend far back into the past. In his outer consciousness, the father-to-be does not realize this and often takes a violent dislike to the child; the mother meanwhile suffering unnecessarily, feeling the lack of the father's love for that infant.

One of Beloved Meta's services to life is to raise up in the world of form those splendid lifestreams who provide places where these unwed mothers are allowed to bring forth their children in privacy, without the censure of society upon them and where these children are given a better start in life. Beloved Mother Mary, Nada and Kwan Yin, as well as many more of Us in Our Octave, also serve with Beloved Meta in this capacity.

Now, I shall appreciate it very much if you will sing one of your songs this morning which will embody the call for the removal of this entity of fear, rebellion, shame and society's censure from the parents—particularly the mothers—who are to

bring forth these "unwanted" children. If you will do this, I feel sure that the Great Karmic Board will allow Us to grant these incoming souls much better bodies than they would otherwise have had—even before the activities of the morning are over. (Group sings song to "Beloved Kwan Yin".)

Into the great Coliseum (made of pink marble-like substance, veined with gold) which has been built for that purpose at Inner Levels where souls are awaiting embodiment, this morning We have been able to draw the inner bodies of all those who are to be parents during this coming year. As those great Flames of the Violet Fire of Mercy and Compassion (which have been called forth by you from Kwan Yin, Arcturus, Zadkiel and Saint Germain) pass through their inner bodies, actual sheaths of substance which have been qualified with fear, shame and rebellion, are being transmuted into light. Even as We speak, the Beloved Lord Michael with His Legions, has offered to endeavor to completely dissolve that mass "entity" of scorn!

Sense of Irresponsibility of "Father-to-be" Draws Future Distressing Obligations

Another distressing factor in the environment into which the incoming soul is born is the selfishness and sense of irresponsibility of the fathers—particularly of the "unwanted". That irresponsi-

bility will require such a parent, somewhere, someday, to take care of that same lifestream again—perhaps the next time under very much more unhappy circumstances and in very great lack; also, the lifestream so cared for may be in very unpleasant conditions of mind and body.

Individuals who have the care of invalids over a long period of years often wonder what caused this responsibility to fall upon them. Nearly always, it is because, in the past, they were those who walked out on the responsibility of parenthood. Such individuals are bound to meet a "karmic" debt of retribution. So We now ask you to join your energies with Ours in a call to make every man stand by his rightful obligations and become a kindly Saint Joseph—a "Guardian of the Young". (Group sings "Love's Opportunity"). We shall take up your energies so released and qualify them with that which will assist these gentlemen.

As We are watching this activity from Our Realm today, the inner service for which you call is being rendered. These mothers-to-be who are *awake* in their physical bodies at this time are present with Us in their Holy Christ Selves, instead of in their etheric bodies as are the others whose physical bodies are *asleep at this time*. (The etheric body is that in which one goes out in sleep at night). As you sang this latest song, *it is the first time this has happened since the "fall of man"*: the incoming lifestream which has been assigned to each set of parents has kneeled before them and

both parents have placed their hands on the head of that soul, *giving that one the benediction of opportunity*. The Beloved Venetian and the Brothers of the Pink Ray are now giving to all of these concerned an anointing of the Divine feelings of Harmony and Balance and here may I ask each one of you, individually and silently, to make the call to the Holy Christ Self of each of these lifestreams concerned, that the *outer self shall remember this inner pledge*. You see, when there is unity of feeling between parents and children, there can be built a much more perfect vehicle for the incoming child. (Group sings "O, Mary dear we love You so . . .")

With such co-operation at Inner Levels, it would seem that the birth-rate this year will increase even more than usual, because so many of those who would otherwise be denied a body (through abortion), doubtless now will get through. Besides that, We also have the promise of a grant of five hundred thousand more perfect bodies. These are to be given to those taking birth this year who otherwise had better not known birth at all, because of the deformities of mind and body into which they would have had to have been born.

Now, We are having a very interesting experience in Our Realm this morning. The Master Paul, the Venetian, has asked the Beloved Maha Chohan to be present with Us during these ceremonies and the Maha Chohan asks that your great petitions continue down into the four-footed king-

dom which has been so much neglected by the prayers and interest of mankind in general and which must now be loved free.

Do you realize just how many unwanted animals are born—for instance, how many "stray" cats there are in one city alone? Beloved Maha Chohan asks that you remember that kingdom from now on. Many, many mothers in the animal kingdom cannot supply enough food to sustain their litters and the Beloved Maha Chohan has applied to the Group Souls Who govern the various departments of that kingdom, asking for the gradual decrease of the size of all litters. This is the beginning of the final removal of animals from the Earth; for the necessity of Elemental life to find the completion of its cycle in an animal form—without an erect back bone and a conscious, thinking mind. God bless you for being a part of this release to them today. I feel that your intensity of LOVE for the animal kingdom will increase as you realize that that form (through the use of the Violet Fire called forth for it by you) will much more speedily evolve into a more constructive expression of life and thereby know great release.

Today, I bring you the full benediction of Helios and Vesta, Sanat Kumara, Lord Maitreya, all of the Elohim and Archangels, all of the Chohans of the Rays and Myself. I also bring you the extreme gratitude of the incoming souls whom you have blessed by your calls; as well as from the Elemental Kingdom. May the Great God Presence

of your own lifestream (anchored right within your beating heart) quickly make you know and feel the gratitude of the God-free for such service as you have enabled Us to render, especially here this morning.

Whenever you wish to use and expand the activities of the Third Ray—Divine LOVE—whose qualities are Adoration, Magnetization and Gratitude to Life—I am your Servant! Thank you and Good morning!
