BELOVED ELOHIM OF PEACE

Elohim of Peace! in God's glorious Name—
We call forth oceans of Thy Golden Flame;
Flame from the Heart of the Great Central Sun;
Guarded, expanded by Thee, Holy One!
Great is Thy wisdom, Thy love and Thy might;
Heavenly glory floods forth on Thy light;
Harmony, healing, beauty to bring—
To Thee we joyously sing!

Peace is the healing of every distress;
Peace is the feeling of God-happiness;
Peace is the power of all God-control;
Peace every hour will Victory hold!
Peace is Love's gift to the children of men;
Peace is forgiveness—again and again;
Peace in the heart, the soul, and the mind—
Peace fulfills God's great Design!

Elohim of Peace, to Thee ourselves we give!
In Thy full glory fore'er let us live;
Now take possession, command and control,—
Over our worlds Thy dominion now hold!
Seal our sweet Earth in Thy radiance, too;
Rule all Her people in all that they do;
Make them the glory of Freedom's Heart;
They are of your world a part.

Glory of all our great Universe dear,
Great Central Sun, we call all Thy love here!
Flood it around our dear Elohim of Peace;
Make all His power and glory increase.
Bless His Beloved with heavenly grace;
Let Their great glory, combined, fill all space.
Let all that lives now bless Thee dear One,—
We love Thee—Great Central Sun!

Jan. 2, 1955

BELOVED children of the One Living God! I come to you today to bring the description of the activities of My Ray (Sixth Ray)—MINISTRATION and PEACE. This now completes the instruction of the Seven Mighty Elohim of Creation on Their Seven-fold Flame in this series of addresses which began some weeks ago. "The Seven Steps to Precipitation" are the unalterable process of all God-creation—finite and infinite.

I come into Earth's atmosphere today through your magnetic "forcefield", the center of which is above your Sanctuary; the energies of which "forcefield" have been drawn here from the heart of Creation in answer to the calls of your precious hearts all through the years. On the energies of your own life I shall write the words which complete the pattern of *conscious precipitation*, by which We created the Universe under the direc-

tion of Helios and Vesta. A part of this Creative Scheme which We brought forth into manifestation at that time was your own sweet Earth, which is now the platform beneath your feet and has provided for you and your fellowman a "school-room" to which you voluntarily chose to come to learn the conscious control and mastery of energy.

What We have done on a Universal scale by the use of these seven progressive "steps" in consciousness, *each and every one of you can and one day must—use* to draw forth direct from the Universal those gifts of light's perfection which are the Will of God for you to enjoy and be able to give to your fellowman. This is because *the ability to precipitate is a natural attribute and power of your own "I AM" Presence*—your Father-Mother God—the Source of your being and the creative heart-center of your present consciousness.

Your "I Am" Presence first became conscious of Itself as a living, breathing Being, when It was first directed out of the Universal First Cause. When that Presence found Itself to be an individualization of God-consciousness, It then chose to draw to Itself the substance of primal light (life) and qualified it with the God-ideas of Its Own personal consciousness. This qualified light was then sent forth by It to create and expand the beauty, glory and ecstasy of creation.

Since the very nature of God—light—is to expand perfection, that "I Am" consciousness then determined within Itself to leave for a time the

heart-center of the atmosphere of Its Creator and explore the Seven Spheres of Consciousness which surround Its God-head—the Sun from whence It came. It remained for as long as It chose in each Sphere, to learn to use the specific powers of creation in each of these Realms. In this way, the “I Am” Presence drew into Its Own Causal Body* the seven different momentums of qualified energy which appear as the seven colors around the Upper Figure on your Chart. As the “I Am” consciousness gradually proceeded from Sphere to Sphere, It finally chose the activities of one of those Spheres which most appealed to Its liking and It there decided to develop some specific expression of God-power along one of the Seven Rays which would be Its gift to the Universe.

Creative Experimentation Begins

After this individualization of your own life-stream had passed through all of the Seven Spheres of creative consciousness (the Causal Body of the God-head) those who decided to try embodiment upon the planet Earth then applied for such permission to the Manu of the First Root Race (the Cosmic Being Who was in charge of the evolutions here at that time). Thus, in the denser substance of the Earth-plane, that Presence learned to wield the powers of thought, feeling, spoken

* NOTE: For explanation of Causal Body see “The Bridge to Freedom” Vol. 5, No. 6: Pg. 21).

word and action and consciously create as the Father does. “Hitherto hath the Father worked; now, the Father and I work”! Now comes the time when each individualized God-flame of His consciousness *must work co-operatively with* the Father to expand the borders of His Kingdom. The above statement of Jesus has been spoken by Us to the chelas this year perhaps more than any other and every man has interpreted it according to his own understanding. Some feel that it means but a greater radiation of sustained harmony; others feel that it means the spreading of the Light and Truth by contacting more of mankind, acquainting them with the Laws of Life—helping to bring them to a realization of the power and powers of creation *which are within them*. Still others feel that it is learning the way and means of actually engaging the energies of the inner and physical bodies in creating as the Seven Mighty Elohim create—in a conscious, ordered, scientific precision, by the use of thought, feeling, spoken word and action—thus producing instantaneous precipitation direct from the Universal.

Of course, “expanding the borders of the Kingdom” *means all of these things—and more!* Now and then, one will find a naturally peaceful and harmonious type of individual—the very radiation of whose aura brings the benediction of God’s PEACE to all the life it contacts. Such an one may be compared to a beautiful flower growing

in a lovely garden, adding to the beauty and perfection of that garden for any and all to enjoy. However, such a flower is not endowed with the God-gift of free-will and choice and has no conscious volition or capacity of its own to be other than it is. It has to depend upon the gardener for its sustenance and protection and is wholly subject to the caprice of anyone passing through that garden who might wish to cut it down.

Now, however, you who have chosen to accept the instruction of the Elohim, as well as the instruction which has been brought to you by the Ascended Master Saint Germain and the Hierarchy, are no longer to be considered "unconscious" radiating centers of Divine Love and Harmony, no matter how beautiful such radiation may be. At this time, We are seeking those who are willing to be *conscious* co-workers with the Spiritual Hierarchy, of which the Ascended Masters and Cosmic Beings (Whom you love and worship, at least to some degree) are active Members.

Those among you who can grasp the explanation and use of the Power of Precipitation (which instruction has now been given you by the Elohimic Builders) *can—and We expect you to—become masters* of the descent of energy into the world of form as whatever substance and quality you require to manifest here; sustaining, protecting and expanding the radiation of perfection for yourself and your fellowman. Your conscious use

of these powers will more quickly bring this world back again into the Paradise of loveliness which It was in the beginning when It first came forth as Our loving handiwork. Then, one must also become Master of the Power of Etherialization (the instantaneous returning of form back into the Universal when such precipitated form has served its purpose), so that that God-life does not remain imprisoned in any vehicle of expression longer than that prescribed by its Creator for its actual service.

Peace—God's Positive Power

As I speak to you this morning, I shall endeavor at least to touch upon the high points of the assignments which have been given Me to bring to your attention in the limited time which has been allowed Us for this purpose.

First of all, right here,—I would like to remove from your minds the erroneous human concepts concerning the God-quality of PEACE. PEACE is not a negative quality! It is the most positive and most concentrated activity of power which is manifest in any Realm. PEACE is not lethargic, indifferent or inactive! Let us examine PEACE for just a moment as a quality. Just *how much power of control does it require* for you to HOLD YOUR PEACE—to remain absolutely poised and Master of every situation—*regardless of the aggravation*—in the midst of your immediate family,

your business associates, your co-workers in this Activity or the world at large? You know that it requires all the power of control you are able to manifest!

In this series of the explanation of the precipitating activities of the Seven Elohim, I am the last One to come to you, inverting the positions of Beloved Arcturus (Elohim of the Seventh Ray) and My humble Presence as the Elohim of the Sixth Ray. This is because, after you have fed the form you wish to precipitate with your own life and the actual manifestation of that which you desire has appeared here, that manifestation must then be held within the *feeling of undisturbed PEACE*; otherwise it will disintegrate and return to the Universal from whence it was originally drawn.

When the Ascended Master uses the Power of Precipitation, He always has a very definite design in mind which He desires to bring forth for some specific purpose that will benefit, not only one lifestream or even a group, but all life everywhere! He first decides within Himself by His Own designing power of thought and feeling, that which He wishes to manifest, even as you might desire to create one of these lovely ceramic vases. Then, by projecting forth His feeling of Divine Love, He calls to Him Elemental life in the form of electronic light-essence (which fills the Universe everywhere) and, through the magnetic power of that love, such Elemental life

obeys His request to fill the form He is creating. The Master then breathes the light and love of His heart upon that design and, with the feeling of loving gratitude for the obedience that substance has given Him, He commands that it be sustained in that form for a certain period of time; for as long as it can render constructive service to life.

Divine Economy

Beloved ones, the Ascended Masters are most conservative in Their use of life. There is a great Divine Economy of the Cosmic Law which most generously provides the limitless abundance of every good thing *for all to use as freely as the air they breathe* and yet *does not permit the wasting of a single electron*; nor the sustaining of a single electron in any form which has served its intended purpose! The Ascended Masters, *having become* the Cosmic Law in action, do not have any "clutter" in Their worlds or activities. They know that primal life which comes from the heart of God must obey Them, because such is the Law. Therefore, They know that Their creations, made up of that light, will remain intact for just so long as They decree it.

Should the Ascended Masters require homes, clothing, means of conveyance—*anything* They might require, either in the Realms of Light or here, when They are assisting mankind—all is de-

signed and precipitated instantaneously from Universal light and serves Their purpose for as long as They desire it. Then, as Beloved Arcturus said in His address, when the form is no longer desired, the directed light Rays of Violet Fire from Their hearts, throats and foreheads enter into the center of that manifested form, releasing the cohesive power from within that precipitation. Then that Elemental life, no longer feeling the cohesive "pull" of that love and command of the Immortal Flame within the form, begins to disintegrate it and automatically returns it to the Sun from whence it came, for re-polarization. Sometimes this Etherialization is *instantly* done, in what would seem to be like a Cosmic "explosion"; sometimes it is done slowly and gradually, just as the petals fall from a flower and its form ceases to be.

So, these powers of Precipitation and Etherialization are now available to you for your joyous, individual use and you are now at a place on the Spiritual Path where you should be using them. *You can*, most assuredly, if you will definitely determine to follow through the concise "steps" which have been given you in Our addresses—*for these "steps" are absolutely mathematical in their precision!*

Allow Me, if you will please, to be somewhat repetitious in bringing again to your conscious minds the consecutive activities of the Elohim as They used the Powers of Precipitation and

Etherialization, which "steps" are unalterably required for the manifestation of any form—from the smallest to the greatest creations.

Seven Steps to Precipitation

First: Nothing is ever created in this world and nothing is ever accomplished along any line until you WILL within yourself to do it! This is the activity of Beloved Hercules and the First Ray. Whether you WILL to walk down the street; to attend a class; to give some service to another; to precipitate a small ring or a large building,—you must first—within yourself—WILL to take the vital energies of your life and accomplish some constructive purpose with them.

Second: This comes under the radiation of the Beloved Cassiopea. After you have willed to create a definite form, one should then ask for the DIVINE PERCEPTION (ILLUMINATION) as to how best to produce that form or, after you have abstractly willed to serve in some way, the PERCEPTION of the Gold Ray is necessary to enable you, through the use of discrimination *and the use of just plain common sense*, to know just what momentums of already developed God-qualities you have to offer and how they will allow you best to serve. Particularly since the time and work of Madame Blavatsky up to the present day, We have had many men and women who have willed to serve the Masters but who indiscrimi-

nately rush forth into action without discretion or the measuring of their own talents and capacities—regardless of the type and amount of qualified substance in their worlds which would allow the best service to be given; also as to how the service they desire to give might fit into the great Universal scheme. So, after you WILL TO DO, then you require PERCEPTION to let you know at least something of that which you wish to do and how that which your world has to offer will be able to lovingly co-operate with God's Divine Plan.

Third: Now comes the step which involves releasing the feeling of DIVINE LOVE from your heart and this "step" is under the direction of Beloved Orion. That which you do in service for the Master or in the use of the Power of Precipitation, requires the loving co-operation of *all your bodies, including the outer physical form.* You have heard it said so often by many of your great Teachers that, what is done in a sense of "duty", must be done all over again *in a feeling of LOVE.* Therefore, you must develop the qualities of feeling of Our Beloved Orion—the loving constancy of staying with your endeavor until it is completed; working with it in gratitude, happiness and devotion, with no thought of time, recompense or personal recognition of any kind; *just serving for the joy of it!* That is the activity of the Third Ray—one of the most important of "The Seven Steps".

Fourth: Beloved Claire (Elohim of Purity) takes fourth place in precipitating. This means staying right with the PURITY of the original design which has been given into your mind by your own Holy Christ Self at your request; or, if you are among the more fortunate ones who are further developed—directed into your mind by some Master Himself. To hold the PURITY of your design means that you do not personally elaborate upon it, "embroidering" it, so to speak; fitting that design into your own reason, logic and individual satisfaction; but that you are willing to sustain the perfect pattern and design which an Intelligence greater than your own has created, so that through you the entire race may be benefitted.

May I say here that, in the creation of this planet Earth, after We had responded to the call of Hercules and WILLED to create; after We had looked into the world of the Silent Watcher and PERCEIVED what Beloved Helios and Vesta wished Us to do; after Our hearts were filled with LOVE for this opportunity to give greater service, We were absolutely selfless in Our desire to create the Earth exactly as Helios and Vesta had designed It and We stayed with that perfect pattern until it was brought forth in great beauty, symmetry and perfection of every kind. Remember, as Elohim (Divine Builders of Creation in this entire Galaxy!) We were not only working with the planet Earth at that time but also in other Galaxies; for We are connected with many

Stars and other Systems. Having within Our consciousnesses many other designs of equal beauty and perfection, We just had to clear Our minds of all other ideas than those provided Us for this sweet Earth. *None of Us presumed to suggest the changing of the form of even a blade of grass!* We voluntarily made Our consciousnesses like panes of clear glass, as it were, so that the light pattern designed by Those Great Ones (Helios and Vesta) could shine through Our consciousness and manifest. We would not even have started this creation if We had not been willing to lovingly co-operate with Its Designers!

Fifth: The next activity is that of CONCENTRATION and CONSECRATION from the Beloved Vista—the quality and ability to stay with one project until it is completed. Here again we come to that which is a great test to the life-stream. The vital fires of joyous enthusiasm and zeal which are kindled within the earnest student when he first touches the Truth of this light, usually turn to ash within about six months.

However, CONCENTRATION upon the same plan, pattern or design until it is physically manifest, is essential to the producing of *instantaneous* Precipitation. I have watched the activities of the inner bodies of the students many times—particularly during this series of addresses given by the Elohim. Every time one of Us has spoken on His particular activity, nearly everyone present determines within himself to draw forth and de-

velop that quality of Mastery! You see, this is quite natural because, while you are in the radiation of Our consciousness and *feeling* of that Mastery, *it seems so very easy of accomplishment to you* and so much worth while. Now, these addresses have been given over a period of several months and, during that time, I can count on the fingers of one hand those who have stayed with the same pattern which they determined to develop some weeks ago.

If you are designing a car, a home, a garment to wear or whatever you may choose to precipitate, stay with one design until you have followed through the necessary "Seven Steps to Precipitation" which are scientifically required to manifest what you desire, visible and tangible in your outer use. It is not so important just *what you choose to precipitate*, but *it is important that you clearly understand the Science of Precipitation*. When you do and you are successfully able to use that Science *consciously* and at will, then, as your Master Saint Germain has previously said: "the things of this world will seem as rubbish to you." However, that which We are endeavoring to make you *feel*, is the joy which you can have in your conscious use of the power which is within you to produce that very manifestation. When you have done it once, the use of that power is yours for all Eternity and the faith, confidence and happiness that wells up in your heart will make you know and feel your Mastery.

Sixth: (Important: In the Science of conscious Precipitation, the Seventh Ray of RHYTHM of INVOCATION *precedes* the activity of sealing your manifestation in the substance and radiation of GOD-PEACE, which is normally the activity of the Sixth Ray.)

Seventh: After you have finished with the Fifth Ray of CONCENTRATION and have stayed with one pattern long enough, you come into the activity of Arcturus—RHYTHM OF INVOCATION. Here again, if you are serving the Master, it is of little effect if you serve Him in a great rush of energy one day and then do not show up again for a month! All the activities of Nature are in perfect RHYTHM. Watch your Seasons, sunrises and sunsets, the ebb and flow of the tides and the regular beat of your own heart. Here you can see something of the necessity for RHYTHM. No matter what you are creating, the RHYTHM of feeding that pattern with your life by your thought, feeling and spoken decree at the same time each day—morning, noon and night (or whatever time you decide to give to it)—is absolutely essential to your success in such endeavor.

In this regard, may I just give this warning, dear hearts? If you do not give your pattern of precipitation RHYTHM, you will bring forth a form without symmetry—if you bring forth anything at all! Some of the less beautiful of your architectural productions and—forgive Me for mentioning this—but some of the imperfections of

your flesh forms are due to the unpleasant effects of broken RHYTHM. Now, you who are conscious students “shy away” from broken rhythm in the world of music and yet, in your own worlds, that broken RHYTHM of thought, feeling, spoken word and deed result so often in ill health, lack of finances, lack of peace and many other limitations. In past Golden Ages of Perfection which have been upon this dear Earth, *all the people* walked with a rhythmic step and breathed the slow rhythmic breath, because the perfect RHYTHM of the Three-fold Flame within their hearts was allowed to govern their life-energies as they flowed into and through their four lower bodies. As the Beloved Arcturus has said to you—you could not long remain angry or resentful if you were to govern the RHYTHM of the life flowing through your bodies, by maintaining the rhythmic breath at all times. Those of you who have studied the art of rhythmic breathing know something about this of which I speak.

In the case of drawing forth into visibility to the physical sight of all, these Flames of the Sacred Fire from the so-called “invisible” (which We do wish to do in some of these Sanctuaries of the New Activity—particularly where there is an already gathered focus and momentum of tremendous proportions in the ethers above a given locality where, in the past, there have been Atlantean Temples of some specialized God-quality)—such Flames can never come forth from

the invisible to the visible until you have a constant and rhythmic attendance upon the focus of such Flames. This constancy of service *must be established far beyond the slightest possibility of breaking such RHYTHM of attendance by the "pull" of any outside interest!*

Now, right here—as I look into your minds and worlds while I am speaking to you—may I suggest that the smaller the thing you choose to bring forth as your *first* precipitation, the less of your vital energies it will take. Do not start with something the size of a large building, for instance. Begin with something that your reason will not confute in the wee hours of the morning when you are alone with your own thoughts and out of the greater radiation of the class; when you take time out during the day for your rhythmic attendance upon your project or during the day when you are engaged in the business of making a living and the pressures of the outer world are upon you. You can prove My words true in all of this —*if you will.*

Sixth: Then, O beloved ones, My heart pleads with you to *prayerfully consider* this final "step"—probably because it is My Own activity. After you have drawn forth your magnificent precipitation, seal it in My Flame of PEACE. Please do not allow any inharmony of any kind from yourself or others to destroy it. Just as you would place a cellophane cover over something precious which you wished to preserve, seal your precipitated form

in the Golden Flame of the Elohim of PEACE and hold it inviolate against the disintegrating forces of human thought and feeling. Perhaps the greatest disintegrating force of such human thought and feeling is the jealousy and doubt of others.

Here let Me warn you—those of you who wish to practice the Power of Precipitation—that it is most important for you to *remain absolutely silent concerning what you are about!* Seal your lips against giving even an intimation through the spoken word as to what you are doing for, believe Me, you have no idea of the violence of feeling which will be driven at you from those who are covetous of your light's greater development. Their own feelings of insecurity would make them act thus toward you.

When the original creation of this planet was finally manifest; when the activities of the RHYTHM of Arcturus had drawn the final invocation of energy necessary for the completion of this planet; when the Seven-fold Flame of the Elohim had done Its perfect work; when the planet Earth began to revolve upon Its axis and began to release into the atmosphere Its melodious keynote to enhance the Music of the Spheres,—it was a beautiful sight and sound indeed! At that time, the PEACE which surpasses the understanding of the human mind abided in the atmosphere of the planet. However, when those "laggard" souls came here from the other Systems and brought

disintegration through the feelings of rebellion, pride, hate, doubt and fear,—just like the well-known activity of the “Trojan horse”—from within out—the great perfection which had been established for so long began to recede here.

Precipitation—A Naturally Used Power on Lemuria and Atlantis

In your outer consciousness you do not remember, but We remember well the glorious perfection which was once upon this Earth when the Archangel Michael first reigned here. During the days of the perfection of light's dominion on Lemuria, when every man, woman and child wielded the powers of Precipitation and Etherialization just as easily as you draw breath today, at each meal time the patriarch of every household sat with his family around him and their table was spread with every good and perfect thing in the way of food and drink for the sustaining of the health and perfection of their bodies, minds and worlds. When the meal was finished, the mistress of the house, by the use of the power of Etherialization, removed the remains of the meal and the vessels used for its serving, without the raising of a hand. At that time, also, the ladies of the household created garments of beauty and perfection for the entire family by the use of their own thought and feeling centers and exercised the power of Precipitation by following through Its Seven Steps.

At this time, of course, all the energies of the soul-life of the people were devoted to the worship of God and expanding the borders of His Kingdom. On Atlantis, to a more limited degree, that same perfection existed in the Temples of Precipitation. In many of the more highly developed civilizations of the past, this activity of *conscious, instantaneous* Precipitation was the daily way of life of the people but why did this perfection not endure? WHY? *Because they lost the power of SUSTAINED PEACE!*

Now, again, you who have given your interest and your life to the activities of the Seventh Ray represented by Our Beloved Saint Germain, are slowly but surely emerging from the mire of human creation and limitation. We are endeavoring to build again a great foundation for this World Movement; trying to make of each of you a mighty pillar of Violet Fire. But, I can tell you here and now that, unless you **HOLD UNINTERRUPTED PEACE** as separate individuals and collective units—no matter how perfectly you build (nor with what perfect substance), you would have but ash in the end as long as there was still within the consciousness of any worker the disintegrating radiations of the “seven mortal sins” and all their ramifications.

To you who are Sanctuary and Group Directors, as well, of course, as to any sincere student who will ask Me for it, I shall give you *My* feeling of PEACE but *be sure you guard that PEACE* in

your own individual feelings, in your homes and in all your activities—if you want sustained perfection.

Every Group Member Important!

Now let us consider for a moment the radiation which goes forth from the energies released by those who attend the group meetings. Let Me tell you that the type of radiation and outpouring of light's blessings drawn forth from Our Realm by your calls (which radiation sometimes completely envelops the Earth) may be determined by the very least of you. You know, self-depreciation is a very subtle and dangerous feeling and it is one of the tools used by the forces of evil to keep people from feeling that each one present becomes a part of the Cosmic magnet to draw the perfection from Our Realms into yours. Some certain God-quality or some Ascended Master's Presence might be drawn into this Octave through the group work in answer to a heart-call from one lifestream in the group—someone who seems quite insignificant to the outer senses but who has a certain harmonious attunement and spiritual power.

Then, too, let us not allow ourselves to be depressed in any way in these meetings but let us hold to a feeling of joyous enthusiasm, if we are in earnest about desiring to "widen the borders of the Kingdom". The sphere of influence of the class is determined by the quality of the en-

ergy in the worlds of every one present. Whenever possible, We come into an already builded and qualified "forcefield" and that "forcefield" is expanded by invocations, decrees, songs and enthusiastic feelings of every blessed member of that audience. This activity can be likened unto a wheel which is lying on its side; the hub is in the center, of course, and the spokes go from it in every direction to its rim (periphery). The size of this wheel of radiation is increased by the release of the combined energies from each one present. The larger the hub of the wheel (number present in the group), the greater the energy released to expand the radiations of the class farther and farther afield. Your own personal light might be the very last bit of radiation needed to make the activity world-engulfing and, without that light, such radiation might fall short of that world-enfolding service.

I cannot speak of this too emphatically! Each student in the group represents a radiating center of some God-quality and is drawn into the group by the Powers of Light already accumulated in his or her own Causal Body all through the centuries. Every lifestream present contributes to the sphere of influence of that group, which influence can become world-engulfing. If the group is small in numbers and the enthusiasm rather "lukewarm", it can but render just a localized service. In the case of this class here today, We have been enabled to completely encircle the

planet Earth by the release of your energies. I am now speaking not only to you but through you to those whom you will contact in the future, for you are to be the teachers of this Law at a later time. You are the men and women who are going to have to answer many questions from the "lukewarm" and vaguely interested. The better your understanding of the truth and efficacy of this Law; the better your knowledge and application of It and just what takes place when It is invoked, the more answers you will have ready to give to your inquirers and the greater will be your service as arms of Ourselves in action.

Groups Form Magnetic Field

Your group activities form a magnetic field of energy which draws Intelligences and Beings from the Realms of Light above the human octave, Who have fully developed Their Own God-mastery and Who are willing and able to give Their full-gathered momentums of that perfection to you and to all who will ask for and accept it. Through the release of the energy in definite visualization, as well as through the spoken word released in invocations, decrees and songs, there is formed this magnetic field of energy ("forcefield") just referred to, which connects with the energies of the Higher Octaves, into which those energies are directed. This makes a sort of "funnel", cutting right through the shadowed substance of the Astral or

Psychic Realm,—"funnel" of light into the Realm of Perfection. What then flows down through that "funnel"? Electronic fire from Our Octave! That "fire" is the purity and power of the feelings of masterful perfection from the Ascended Beings. At your call, one or more of the Great Ones in Our Realm Whose attention you have drawn by that call, directs His consciously qualified light-substance to you here.

For instance, when you magnetize the Beloved Archangel Michael, just what happens? First you draw His attention and consciousness to you by your call to Him, with your thought and feeling thus fixed upon Him. The moment your attention goes to any Perfected Being, that moment His "virtue" automatically flows out from Him (or Her) to you. That energy is sent to you in the form of a Ray of light, made up of what we shall call for simplicity and clarification—"electrons". This sending forth of the Ray by the Ascended Master is a *descending activity*. Then, when that Ray reaches the world of the one who has called for assistance, what happens? That same Ray, qualified with the blessing necessary to answer the call for help from the supplicant, immediately begins its *ascent* back to its Sender as *living Flame*. The very nature of the Flame is always to rise and so, this Ray of perfected light energy passes as Flame up through the four lower bodies of the supplicant (physical, etheric, mental and emotional), as well as through the atmosphere around that one,

This activity of the rising Flame then completes the Law of the Circle—the Ray which the Master sent forth returning eventually to Him with the added blessing of the service rendered to the supplicant. Such returning Flame then adds to the glory of that Master's Causal Body. Whatever purification and blessing has taken place in the world of the unascended one is a *permanent gift* from the Master to that one. *However, through the exercise of his own free-will, that unascended one, by allowing momentums of certain destructively qualified energy from the past to act through habits of thought, feeling, spoken word and deed, may re-create all over again the same distresses from which he has been set free!*

In the case of the Beloved Michael, He directs His attention to the supplicant through that "funnel" of which We spoke before and, because all Perfected Beings desire only to expand God's goodness, Lord Michael desires only to pour the radiation and feeling of His Mastery of energy to you to help you. This is His gift of faith, confidence, enthusiasm and positively qualified energy into and through your world, the worlds of all you contact and into the general atmosphere of Earth. If you are holding your world in a state of sustained harmony and PEACE at all times, you then become a living "conductor" of the fire of God-perfection into this physical appearance world and this "fire" purifies and raises in consciousness everyone and everything it touches. Thus can you

make of yourselves a constantly radiating center of light's perfection which can go to the very ends of the Earth, if necessary.

Explanation of "Chakric" Centers

Now, part of My assignment which was given to Me to include in this morning's service is a brief explanation of the "chakric" centers in your bodies. You see, whatever takes place here in this "forcefield"—the heart-center of Our New Activity—affects every individual belonging to this Movement. When We offer one of these Quarterly Classes, some are fortunate enough to feel it a real necessity to come into Our direct Presence to receive the gifts We have to give. Although some seem to feel it quite unnecessary to come, bringing their physical bodies here and so receive the blessings of such classes direct from Us, they are still the beneficiaries of them to a certain extent, since the radiation blazes forth at such times from this "forcefield" to all who are interested in Us. This morning, every gentle reader of our literature (especially "The Bridge" and "The Bulletin") on every Continent of the planet, is having assistance from Us today.

When We endeavor so to draw you together in one place this way, it is that We may give to your bodies, minds and feeling worlds, a definite service.

For a moment, let us consider the "chakric" centers in your etheric body, corresponding to

the ganglionic nerve centers in your flesh. You know, the word "chakra" is an Oriental word meaning "wheel."

As you have been told, the Seven Rays of the Seven Mighty Elohim are anchored in the forehead of every physical form and, through the expansion of these, We are able to reach into your worlds to help you, if you will allow Us so to do. Of course, We never intrude in any way, for your God-given gift and prerogative of the use of your own free-will is always paramount! You see, from the beginning, it was intended that the Elohim, Archangels, Chohans of the Rays and Angelic Host were to be in *constant daily association* with mankind, as They are on Venus and other planets; *and have been*, all through the ages. However, the "veil of maya" (effluvia of discord) gradually became so very thick around the planet Earth and the actual bodies of the people, that We could not get through to their consciousness at all. I think there has never been a recorded time on this planet when the Elohim and Archangels have spoken to the people of Earth in consecutive order as has been done here recently. I believe the Chohans have.

In the etheric body are seven centers which are called, in Oriental terminology, the "chakras". These *should* carry the positive, clear, constructive colors representing the colors of the Seven Rays of the Chohans, the Archangels and Ourselves. These "centers" were meant to be convex in

shape and radiating foci of the qualities of perfection of the Seven Rays. Instead, because of centuries lived in discordant vibrations, these have become concave,—declivities in the etheric body. Therefore, instead of being radiating centers of God-perfection, through long ages of human experience, these declivities have become filled with the destructive, humanly-qualified vibrations and have become the roots of the "seven mortal sins", with many ramifications. If you will call to Me to help you in such activity, I shall be glad to help you to root out the *causes and cores* of these destructive vibrations and, drawing these centers from a depressed form, make them convex in shape again. When this condition has been so corrected, I can then re-charge these centers with the positive radiations *which they should have*. Then, instead of being so negative and so easily accessible to the particular distresses which disturb you individually, you can then be a positive radiating center for the qualities of the Elohim, the Archangels and the Chohans of the Rays, if you so choose. No one needs to accept this assistance unless he desires to have it!

Previously, We have not discussed these "centers" with you because, under the Law of the New Day and the Ascended Master Saint Germain's Activity, the attention of the students is to be focused only upon the three upper centers of the body. But, when the call went up from you this morning for the removal from yourselves, all

under this radiation and all mankind, of the causes and cores of the "seven mortal sins", through the intercession to the Great Karmic Board of Beloved Kwan Yin (Goddess of Mercy), We have permission to speak briefly on these "chakras" today.

Each "chakra" should be like a wheel moving rapidly in a clock-wise rotation and the more rapid the vibratory action of these "chakric" centers in your four lower vehicles, the more non-recordant they will be to discord. This is one of the services rendered by your rapidly spoken decrees and quick tempo of your music. Please remember, though, that this is not to be confused with the idea of "hurry". All along the way, it requires the use of the student's discrimination—it is really the way of "the razor's edge". "Hurry", in itself, is destructive and is to be avoided at all costs by the sincere student. However, a rapid, positive vibration quickens the energies of the four lower bodies and makes one repellant to feelings of depression, doubt, fear, lethargy and all of the various sins of the human; except, perhaps, the qualities of pride and rebellion, which move at a very quick rate and are more subtle than some of the others. These negative vibrations may get into the student's world either from within his own accumulations of discord which are recorded in his own etheric body and are sometimes brought to the surface by the outer consciousness through recalled memory; or they may be floating

in the atmosphere in which he moves; or they may be consciously directed at him and his world by others who have been caught in destructive activities.

These "chakras" in the etheric body are supposed to be like suns of their particular color—magnetic centers for the drawing into the world of the individual the radiations of the perfection of the qualities which they represent from the Elohim, Archangels and Chohans of the Seven Rays. In the Jewish religion and in other religions where they use the Seven Jewels of Light on the Altar, these Jewels are representative, not only of the Seven Rays, but also of these centers within the etheric body and, through the etheric body, to the physical body.

The lowest "chakra" which is at the base of the spine is the focus of lust and passion in the spiritually unawakened. This is its *negative* aspect. In the "awakened", it is the *positive* focus of Purity. The Elohim in charge of that "chakra" is the Elohim of Purity; the Archangel Who should pour His radiation of the Resurrection Flame through it is Gabriel and the Ascended Master is Serapis Bey (Who, when allowed to blaze the purity of His Ascension Flame through this "chakra", assists the individual to the victory of the Ascension). *Please do not put undue attention upon this.*

The central "chakra", located at the spleen, is the focus of anger, malice, hatred and even mild dislike, in its *negative* aspect. Its *positive* activity

is the power of Invocation. The Elohim in charge of this center is Arcturus; its Archangel is Zadkiel and its Ascended Master is Saint Germain.

The "chakra" at the solar plexus is the focus of greed, gluttony, covetousness and fear in its *negative* aspect. That is why you feel "struck" in the solar plexus when you are suddenly fearful. People are gluttonous and covetous because they are fearful that they either are not receiving or that they will not receive their just share of the good they should have. The *positive* quality of this "chakra" is PEACE and this focus is that over which I am in charge as the Elohim of PEACE. The Archangel Who radiates through this center is Uriel and the Ascended Master is Our Beloved Nada. This is one of the reasons why, early in your study of these Laws of Life, you were asked to visualize the luminous Presence of Jesus in dazzling white light surrounded by gold * on the forehead and over the solar plexus of yourself and others. When this "chakra" has been completely purified and you hold the solar plexus in a wholly controlled manner, feeling the radiation of Ascended Master PEACE from My Own humble Self, Uriel and Nada, then you will have complete protection against both fear and the

* For further explanation please see "The Bridge to Freedom," Vol. 6, No. 1: P. 22. As before mentioned, our Beloved Lady Master Nada recently has been accepted by the Cosmic Law as the Chohan of the Sixth Ray, replacing the Beloved Jesus in this office, as He and blessed Kuthumi jointly have been accepted as World Teacher.

destructive desires of others of mankind; as well as complete protection from the "grasping" nature of your own physical appetites.

The "chakra" at the heart, in the *negative* aspect, represents lethargy, sloth and laziness. If your *heart* is not in a thing, you do not give it much of your life. The *positive* radiation of this center, of course, is that of pure, selfless, Divine Love. Its Elohim is the Beloved Orion; the Archangel is Chamuel and the Chohan is the Ascended Master Paul, the Venetian, Who represents tolerance and "His brother's keeper".

The "chakra" at the throat is the power center of the body where, in its *negative* aspect, rests envy and the desire for personal power. Its *positive* activity is the power to create perfection by the doing of God's Will and, the Elohim in charge here is Hercules; the Archangel is Lord Michael and the Chohan is Beloved El Morya.

The "chakra" in the forehead is the focus of the power of reason and its *negative* aspects manifest as pride and intellectual arrogance. It is the place where doubt is allowed to enter the mind. Its *positive* aspect is visualized in early mythology as the "all-seeing-eye" of God and the power of Concentration. The Elohim Whose name is Vista (Whom you have known through the years as "Cylopea") is the One in charge of this center. The Archangel in charge of this "chakra" is Beloved Raphael Who is the Archangel of Concentration and Consecration. No lifestream will con-

secrete himself to anything until both his mind and heart are convinced of the efficacy of the service he can render through such endeavors. The Ascended Master Hilarion represents that focus also. That is why, as Saint Paul (formerly Saul of Tarsus), He had the tremendous mental development of the Fifth Ray (the Ray of which He is today in charge).

Thank God that the "crown-center" of the body (at the very top of the head) has not been touched destructively and there is no negative vibration there. In most people, this center is completely undeveloped but, in the earnest student, when the attention is rhythmically turned to his own Beloved "I Am" Presence anchored within his own heart, this center begins to throb and eventually forms an aureole or halo of light about the head. Finally, it comes to a point where, with the inner sight at first, you can see a blazing halo of living light around the head of the sincere student. This is the "chakra" presided over by Beloved Cassiopea, the Elohim of Illumination; its Archangel is Beloved Jophiel and the Ascended Master is our dear Kuthumi. Of course, His Ray is that of Illumination and all who start upon the Spiritual Path first come under the direction and instruction of Beloved Kuthumi.

Now, We have given you a great deal this morning— yet you must have this information and knowledge if you are to move forward into greater light! In the Name of God—dear people—after

you have received this instruction—PLEASE USE IT! You are going to be Doctors of Spiritual Philosophy and you should have everything essential for such service right at your "finger-tips", if you are to be of help to your "patients". You should be thoroughly familiar with the names and activities of all the Elohim and Their Divine Complements; the Archangels and Their Archaii (feminine counterparts of the Archangels); the Chohans (Lords) of the Seven Rays (Their activities also representing the positive functions of the ganglionic centers—"chakras" just referred to); the use of the various activities of the Sacred Fire; the powers of magnetization and radiation and—most important of all—the capacity to do it yourself!

Evolution of the Elohim of Peace

Some of you already know that the evolution of the Elohim is through the Elemental Kingdom (El-e-mental meaning "mind of God"). Each of Us started out as small Elemental beings, belonging to different Systems, different Galaxies, at different times. I was one among those Elementals Who followed the exact order of creation. You have seen Universal Elemental Light filling the atmosphere; those tiny electrons seem to be going nowhere—just flitting hither and yon in the sunshine. You see, when one is first God-created, there is complete freedom to just enjoy one's self.

That is where some folks get the idea of Heaven as being a place of eternal enjoyment, rest and the general "do-as-you-please" attitude. *They remember backward*—for this is not looking forward—and I warn you ahead of time—*the future is not going to be like that!* Those were your "pre-Eden days"!

Long, long ago, I was one of these tiny Elementals, flitting hither and yon in My Universe; whenever I felt like it, attaching Myself to some Light Ray projected by some Being of Whom I was scarcely cognizant. At times, I rode upon a great beam of that light which was destined to become part of a Star or some other lovely God-creation. I had no responsibilities and no obligations.

This same freedom is given to all of God's creations—for instance, your "I Am" Presence, when first created, was permitted to go through each of the Seven Spheres of activity around Its God-head (Its Source); find that Sphere in which It was most interested; stay in any Temple as long as It liked; at the feet of any Master for any length of time It desired. The Angels have like freedom. When first created, They disport Themselves in the glory and light of the body of God and, eventually, become a part of the Virtues of Faith, Hope, Charity or any God-virtue They please. These Angels live in the Temples of Their choice—They absorb and *just are!*

Then, suddenly, one day there came a feeling

within Me that I wanted to be a *conscious* part of creation. When this takes place within anyone, it means that the activity of the First Ray is born within them—the WILL TO DO. So it was with Me.

Then I sought out someone whom I knew could tell Me just what to do and, when I had found such an one, I was told that, if I cared to go to a certain Nature Temple, I could learn how to build form—perhaps a flower. To do this, together with others of like intent, I had to learn to hold the thought-form shown to Us on the Altar by the presiding Deva, Our Instructor. After enrolling Myself as a student in this Nature Temple, My first assignment was to build a five-petalled, yellow flower *and I shall never forget it!* O, there must have been a couple of hundred of Us in the class—all quite as irresponsible as Myself. We could hear beautiful music outside the Temple; the air was so lovely and fresh; beautiful Beings of Light were passing through the atmosphere outside the windows,—and the holding of the pattern of that flower got *so monotonous*, I can tell you! However, the Deva just stood there on the Altar and from Himself He externalized the pattern of this flower which We were to learn to create. He tried to catch Our thoughts and focus them upon that flower. But, I soon found that just the WILL TO DO was not enough—there must follow the other six "steps" of creation to perfect the activity.

Then, suddenly, PERCEPTION came into My

mind and I thought—"Yes, *this is* a part of creation" and I PERCEIVED, at least, what the Deva wanted Me to try to do. Up until that time, I just enjoyed the fragrance, the color and the symmetry of form of that flower. I did not feel that I wanted to do anything more than that about it. As that feeling of PERCEPTION took possession within Me, I consciously tried. O, but that first form which I attempted to create was certainly a distorted one—it was sort of square; it did not have enough petals; nor did it have the right fragrance. Besides, just as soon as I took My attention away from it—the form was gone! Now, some in the class were still not very concentrated in their attention and were still "flitting around". However, those of Us Who really meant business finally moved up to the front of the room, nearer the Altar.

Well, as We continued to absorb the instruction and tried again and again, finally, one day, the little yellow flower appeared in My hands and I was so happy! This time I had the right number of petals, the right color and the right fragrance for My flower but—My goodness! just as I was about to present it to the Deva, one of the Archangels went by the window and My attention being drawn by His magnificent light, it left the flower for an instant. When I looked back at My hand—the flower was gone! Just a lack of Concentration, you see!

Now these Devas do not speak at all. They give all Their instruction through radiation and Our

Teacher Deva suggested to Us that if We wanted to create these flowers *consciously*, We could add beauty and perfection to a Springtime on some lovely planet which the Elohim in charge of that planet were to beautify for the blessing of an evolution of living souls. As I thought of this, LOVE for My endeavor was born within Me—I felt that I wanted to make that little flower perfect enough, fragrant enough, beautiful enough and make it last long enough to really bless some part of life. That was the third aspect of Divinity—LOVE—you see! Then I forgot *Myself* and the distraction of Those who were going by outside; then I really wanted to create that flower and I stayed with it!

What happened then? I received an assignment. The Devas do not assign one to the task of even becoming an apple-blossom until They know you will stay with that task long enough to complete it. In My new assignment, I think there were about seven hundred of Us directed to adorn one big tree. Incidentally, the yellow flower I was to create does not grow on your Earth—nor does such a tree. Perhaps, one day it shall.

Here came another lesson which I did not learn at once. Our Teacher reminded Us that when We went to that planet with the Great Deva of the tree to be formed, We would see all different kinds of trees. He warned Us to watch and see that Our individual flower to be created did not become just like that which We saw on some other shrub

or tree. I forgot His admonition and Mine did! I saw pink flowers, blue ones and white ones and, by the time I was through looking at them all, I had nothing definite of My Own in mind—and therefore no manifestation.

Then I learned the fourth lesson—the PURITY of holding to the Divine pattern which had been given Me in the beginning. When We finally went back to Our Nature Temple “schoolroom”, none of Us Who had “lost out” was at all proud of His accomplishments. You see, Those in charge always prepare more Elementals than They know will be needed for a certain creation and, therefore, the creation was completed by those who could do the work. I did not volunteer so quickly for the next experience, I can tell you! However, within Myself, I determined that I would hold the pattern of that yellow flower until I had brought it forth in perfection.

Finally, I did not even have to volunteer. My Teacher Deva, in mercy, said to Me, one day: “All right—you may go and try again”. This time I closed My eyes, My mind and My attention to everything but to the *becoming* of that yellow flower. Yet, there remained even more for Me to remember—CONSTANCY—for I allowed My petals to fall before the Springtime was over! I had to learn the fifth activity of CONSTANCY and CONCENTRATION until the Deva called Me home. Because of My lack of CONSTANCY, after the premature falling of My petals, *I was*

home a whole month before the others! I must tell you that I did not go into the Temple for quite a while—I walked up and down outside but I did not go in! At last, I had to go in—you know that! Wherever you are and whatever you volunteer to do, you must finish it one day. It is the same thing with humanity—they may “play around” as long as they wish and waste their time but, one day they must finish their course (fulfill their Divine Plan). Sooner or later, perhaps with your feathers trailing, you will go back to the fulfilling of your original Divine Plan.

When We gathered again before the Deva in the Nature Temple, I was seated far back in the last row. I was small of stature and I thought I would not be too easily seen there. Thinking to Myself, I said: “I shall never go out again. I’ll just stay right here”. However, next We were taught the lesson of RHYTHM.

Here I learned that I had to hold the purity of form and that I had to stay at My post until I was released by the Being Who had sent Me forth. That was CONSTANCY. Then, amazingly, I learned that I had to go *every* Spring! My goodness! I thought going once was a major achievement, but I learned the lesson of RHYTHM—yellow flower—yellow flower—yellow flower—over and over again, *each and every Spring*. I shall not attempt to tell you how many Springtimes I became a yellow flower. Doing it once was a novelty; even a dozen times was fun; but *every*

Spring seemed to Me like a long, steady, relentless "grind"! Obedience! Obedience! Obedience! to the end!

The last step I had to learn in this process of creation was to HOLD THE PEACE. The last time that Deva told Me that I was going to be a yellow flower again—I *nearly lost the whole course!!!* You see, in the meantime, others of My friends had become beautiful trees, shrubs and other lovely creations but *I was still* a little, tiny yellow flower. So, you see, I had to learn to HOLD THE PEACE—PEACE which I became Myself—mind you—in a far-distant future scheme! So, if you are one of those "little yellow flowers", learn to HOLD YOUR PEACE! Perhaps, one day, you will be a Sun to a System! Who knows what anyone's use of free-will may do?

At last, on this final trip, I just *let go!* I really did! I thought: "If God wills it, I shall be this blossom for eternity!" That was My last trip! That absolute surrender gave Me My release and, that time, when I returned to My Deva in the Nature Temple, He crowned My service of the ages—AGES I SAID!—with Victory! Then I was graduated into the Devic Kingdom.

For a long, long time, I served and worked with increasing efficiency until I finally took the initiation of the Elohim. Later, when given opportunity by the call from Beloved Helios and Vesta for Those Who would volunteer to build for Them this dear planet Earth, I voluntarily joined the

other six Elohim to render that service. We served together in association, both for the joy of comradeship and the joy of creation.

Now, proceeding through these "Seven Steps" of activity is the way by which the Elohim expand Their consciousness from an Elemental being to a great Builder of Form; it is the way by which the tiny Cherubim become great Devas of light and, passing through those "steps" also, the spiritually unawakened soul eventually awakens and becomes the great Ascended Being of Love, Light and Perfection. There is no escape from the following of those "Seven Steps" anywhere. Some natures are such that they accept and follow those "steps" quickly and some take a longer time to accomplish. Believe Me, I know! I think I was the slowest pupil of all the grouping of Elementals with Whom I started out but, one thing I learned (if nothing else) was to HOLD MY PEACE *and abide in the wisdom of the Law!*

For the kindness and courtesy of your attention and for your love, I thank you! Will you remember always, please, that PEACE IS A POSITIVE POWER! I—Who have passed the way of evolution before you—I am yours to command! I leave with you My blessings. May all your precipitations be perfect; your "flowers" beautiful and all your God-endeavors successful in His Name! Thank you and Good morning!
